	PRECISION MOLECULAR SPAIN S.L. Quality Policy		

PRECISION MOLECULAR SPAIN S.L. belongs to the PRECISION MOLECULAR SOLUTIONS LLC corporate group.

PRECISION MOLECULAR SOLUTIONS LLC is a biotechnology company that leverages molecular genetic diagnostics and data analytics to develop prescription solutions and services that drive better patient outcomes, improve operational efficiency, and reduce healthcare costs.

Through its philosophy of innovation, by combining healthcare data, genetics, and the latest evidence-based medicine, Precision Molecular Solutions LLC provides analysis of the physical and financial risks that medications pose to individuals and populations.

Optimizing and managing medication regimens is complex, and we have designed comprehensive solutions to deliver the most effective tools to improve health and lower healthcare costs.

PRECISION MOLECULAR SPAIN S.L. was founded in 2023. The organization has a multidisciplinary team that combines the talent of highly qualified professionals with extensive European and international experience and success in the business and biotechnology world.

- **Vision:** Our vision at **PRECISION MOLECULAR SPAIN S.L.** is a world where healthcare is truly individualized, where each patient receives a treatment plan tailored to their specific genetic makeup, lifestyle choices, and health history. We aspire to lead the way in the advancement of precision medicine, empowering both patients and healthcare professionals with actionable insights that optimize health outcomes, reduce healthcare costs, and ultimately pave the path toward a healthier and more equitable society. Through relentless innovation, research, and a dedication to the highest standards of quality, we aim to be the global beacon of excellence in precision medicine.
- **Mission:** At **PRECISION MOLECULAR SPAIN S.L.**, our mission is to revolutionize healthcare through cutting-edge technologies and precise methodologies, personalizing treatments to enhance the lives of patients. We are committed to harnessing the power of advanced diagnostics and data analytics to enable healthcare providers to deliver tailored, effective therapies that address the unique genetic and lifestyle profiles of individuals. With a focus on innovation, collaboration, and ethical practices, we strive to be at the forefront of shaping the future of medicine.
- **Values:**
 - Inventive
 - Compassionate
 - Committed
 - Trustworthy
 - Disruptive
- **Tagline:** Treat with Precision
- **Value Proposition:**
 - **PRECISION MOLECULAR SPAIN S.L.**, uniquely combines molecular diagnostics with clinical decision support software, seamless integrations, and sophisticated data modeling solutions that deliver proven patient outcomes based on research-driven methods of personalized

medicine, ultimately evolving a more modern value-based standard of care resulting in operational efficiencies and lower overall healthcare costs.

— **Supporting Messages**

- **Value-based outcomes:** Reducing the rate of Adverse Drug Reactions to enhance patient outcomes and overall lifestyle with a research-driven, clinical approach to personalized medicine.
- **Technological impact:** Driving operational efficiency through comprehensive software and data processing.
- **Collaborative capabilities:** Evolving precision medicine by leveraging key clinical academic connections to ensure research-driven, clinical approaches to a more modern standard of care.

PRECISION MOLECULAR SPAIN S.L. is committed to the quality, safety, performance, cybersecurity and regulatory compliance of our products and services. This commitment is manifested in the implementation, maintenance and continuous improvement of our Quality Management System in compliance with EN ISO 13485 and Regulation (EU) 2017/746 on in vitro diagnostic medical devices.

To achieve this commitment, we consider it essential to:

- Meet our customer needs and expectations and applicable regulatory requirements and communicate to PRECISION MOLECULAR SL staff their importance.
- Ensure clear roles and responsibilities within the organization and allocate sufficient resources to maintain the quality and reliability of our products and services.
- Promote an active participation of all staff, ensuring they are aware of the relevance and importance of their activities and how they contribute to achieving the objectives.
- Provide internally adequate and up-to-date training, as well as appropriate communication and efficient knowledge management.
- Apply a systematic risk management approach throughout the lifecycle of our products and processes, including cybersecurity risks.
- Deliver services while protecting the confidentiality, integrity, and availability of the information processed within our products and systems.
- Collaborate with qualified subcontractors and suppliers who meet our quality and regulatory requirements.
